

Universal Design in Practice

1. Look at the Big Picture
2. Read the Requirements
3. Don't Assume What Future Users Can't Do
4. Find the Right Products
5. Select Adaptable Products
6. Coordinate with All the Players
7. Think About How People Will USE It
8. Design With Everyone In Mind
9. How Will It Age?
10. How Will You Maintain It?
11. Think About the Climate
12. Don't Play Hide-And-Seek
13. Be Sensitive to All Your Other Design Criteria –
INTEGRATE Universal Design
14. Don't Be Efficient at the Expense of Being Effective
15. Don't Get Carried Away with Artistic Interpretations
16. When You Get Frustrated, Lost or Confused... Ask for Help
